EDUCATION

University of California - Irvine, USA

PhD, Economics, Fall 2017 - Summer 2023 (*expected*)
M.A., Economics, 2019

Madras School of Economics, CUTN, India

M.Sc., Economics, 2016

Hansraj College, University of Delhi, India

Bachelor of Commerce (Honours), 2013

RESEARCH INTERESTS

Macroeconomic Policy, Monetary Economics, Behavioral Macroeconomics.

WORK IN PROGRESS

Understanding the Effects of Sentiments in a Monetary Union.
(Job Market Paper)

Do Weather Extremes Make Inflation Harder to Forecast?
(with Gunes Kamber and Roland Meeks)

Stock Returns of Federal Reserve Officials
(with Cody Couture)

WORKING PAPERS

Fiscal Policy and Sentiments in a Monetary Union, 2021.

Abstract: Members of a monetary union have limited control over monetary policy. This can elevate the role of fiscal policy as the primary macroeconomic tool against country-specific shocks. Using data for the European Economic and Monetary union, I argue that fiscal policy is highly effective at stimulating output in a monetary union through its positive impact on consumer sentiments. This impact is strongest in peripheral countries where agents may view monetary policy as sub-optimal in responding against domestic shocks.

Unconventional Monetary Policy and Consumption, 2020.

Abstract: This paper provides empirical evidence the role played by household mortgages in the heterogeneous response of consumption to unconventional monetary policy. Specifically, I study the mortgage refinancing channel of transmission of monetary policy to household consumption. I find that the homeowners who refinance their loan in response to an expansionary monetary policy shock consume more than households who do not refinance their loans and households who are renters. This heterogeneity is conditional on local home prices. Mortgage owners in states which were severely affected by the housing market crash during the 2008 financial crisis did not respond to the unconventional policy shocks. On the other hand, mortgage owners in less affected states who refinanced their loans have higher consumption growth, following an expansionary policy shock.

RESEARCH VISITS

- International Monetary Fund - Fund Intern
- Federal Reserve Bank of St. Louis - Dissertation Intern

June 2021 - September 2021
August 2021
